

CBME - Workflow

Technical Setup

Elentra Core Team
Queens University

Database Setup

Database Tables:

- Cbl_assessment_lu_form_workflows
 - This table is responsible for holding all the available workflow types in the application
- Cbl_assessment_lu_form_workflow_group
 - This shows what user group is allowed to trigger what workflow
- Cbl_assessment_lu_form_type_workflow_link
 - This is a junction table connecting workflow and form types
 - By default, the only workflow that is linked is 'None'

Default Form Types

Form_type_id	Form Type
1	Generic Form
2	Supervisor Form
3	Field Note Form
4	Procedure Form
5	PPA Form
6	Rubric Form
7	Standard Rotation Evaluation Form
8	Standard Faculty Evaluation Form

Default Workflow Types

Workflow Id	Title
1	Entrustable Professional Activity (EPA)
2	Other Assessment Form
3	Faculty Evaluation
4	Rotation Evaluation
5	None

Using the quick reference given above, link the workflows with the form types in the `Cbl_assessment_lu_form_type_workflow_link`. Then add the groups allowed to trigger what form type in `Cbl_assessment_lu_form_workflow_group`.
