*CORE
PHILOSOPHY
OF THE
COMPANY*

A person is shown from the chest up, wearing a VR headset. The headset's display shows the text '46%' in large, glowing white characters. The background is a dark blue gradient with abstract digital patterns and a film strip winding around the person's head.

46%

At the core of CVN is our membership program, through which we allocate 46% of the company's total revenue to members, distributed fairly based on their levels and performance. By increasing the number of members and platform traffic, CVN can collaborate with film companies to generate additional revenue. The more participants involved, the higher the platform's profits.

COMPANY ADVANTAGES

CVN has signed agreements with over 30 leading global streaming and film companies, providing access to numerous high-quality film and television resources, including the latest releases and upcoming titles. Additionally, CVN is building the world's largest behavioral data platform and has developed a comprehensive platform that includes film market information queries, script collaborations, marketing and distribution, financing services, and film-related merchandise trading. By 2024, CVN is expected to provide financing and promotional support for 20 films.

MEMBERSHIP EARNINGS SECTION

Fixed Income

Members can earn a stable income by completing daily tasks. To ensure the long-term stable operation of the platform, members' returns are capped at 2 times the net profit. This measure is designed to control risk and ensure that members can receive continuous earnings.

Through such risk management, the platform can grow steadily while safeguarding the interests of each member.

Dynamic Income

Members can earn additional profits by building and expanding their teams. Inviting new members and helping team members grow will bring more earnings. As the team size grows and members actively participate, your income will increase proportionally.
