## SO HOW DOES IT WORK?

If you want to send a grant from your Charityvest account, it's easy with just these three steps:

### GET IN TOUCH

Let us know you'd like to make an international grant and we'll connect you with one of the team members at TrustBridge Global, who guides your chosen charity through an application process.

### CHARITY ONBOARDED

The charity sends a completed application to TrustBridge along with a CHF 150 assessment (you can pay this from your DAF for the charity, if desired). Your charity now has the ability to receive grants from you and anyone else in the world.

### SEND YOUR DONATION

Once the application is complete you'll recommend a grant from your Charityvest account to TrustBridge with instructions on which charity you'd like to send funds. TrustBridge handles the rest ensuring your charity safely receives the grant in their local bank account.
